

I am writing in regards to the new proposal involving LPFM's. I have grave concern that one of my favorite radio stations will be affected negatively by this proposal. Klove is a radio station I listen to on 89.9 and I am always informed of great local opportunities to serve and attend events thru the station. There is no station like KLOVE in my area. KLOVE is commercial free and provides services locally that other radio stations do not - like prayer with pastors 24-7. I know that the work that KLOVE does in my community cannot be replaced and the service it provides is unmatched. Thank you for not allowing LPFM stations to take priority over current FM translator services which might take KLOVE away from my community.
